Mobilepedia Innovations Pvt. Ltd. signed Memorandums of Understanding (MoU)with NEC Technologies India in order to explore collaboration on joint development of FIWARE - based solutions.

Mr. Mukul Mahajan, Director, Mobilepedia Exchanging MoU with NEC and Tech Mahindra at the Launch of FIWARE Lab Node

Mobilepedia Innovations Pvt. Ltd. signed Memorandums of Understanding (MoU) with NEC Technologies India in order to explore collaboration on joint development of FIWARE - based solutions.

"The FIWARE Lab node in India managed by NEC enables companies developing smart city solutions for India to keep their experiment data within India. FIWARE brings in royalty free standards for interfaces and data models that help to integrate applications easily, which can be an edge over others for the smart city opportunities in India," said Mr. Ulrich Ahle, CEO of FIWARE Foundation through a video message during the launch event.
